

RONALD H. ROBERTS TEMECULA PUBLIC LIBRARY

FORENSICS: FINGERPRINTING

Monday, June 19th • 6:30 PM – 8:30 PM
Limit 40 Participants • Grades 7-12

The crime of the century has just occurred. Figure out which of the suspects is guilty by using forensic science. With the help of Professor Nick Reeves of Mt. San Jacinto College, you will use DNA fingerprinting to examine the evidence and solve the case. Sherlock Holmes would be impressed by your deductive skills.

Advance registration begins at the library reference desk two weeks prior to scheduled programs and events.

Space is limited. Carpooling is encouraged. Program dates & times subject to change.
