Accessing eBooks through Riverside County Library System

1) Go to: www.rivlib.net
2) On the green menu bar across the top, click on “eBooks”

3) Click on your choice of eBook providers. Have your library card ready.

(Enki is probably the easiest to use. Even for kids. Has a variety of classics.)

4) WITH OVERDRIVE: You will log in with your library card #.

5) You can use the menu to look for a specific genre, or format, such as audiobooks.

OR you can browse the titles on display.

6) Choose a title. If it says “Wait List” at the top that means it’s checked out and not currently available. You can choose to “Place a Hold” and you will be notified when the book becomes available. If it says “Available” at the top, then you are able to check out the book by clicking “Borrow”.

Your items checked out will always show up in your eBook acct under “Loans”.

With Overdrive you have the option of Kindle, or using the Overdrive App, you can download an EPUB file, or you can open in the Web Browser on any device and read by scrolling through the pages.

If using rbDigital, you will have to download the App to your device. rbDigital has a variety of books, audiobooks, and magazines
